Music Institute of Chicago

Attestation Form for Covid-19 Test Confirmation

Following International Travel

Faculty, staff, students, and visitors who have traveled internationally are not permitted to enter MIC buildings unless they show proof of a negative Covid test taken 3-5 days after their return to the United States. MIC will accept a negative result of an at-home Covid test accompanied by a signed attestation form stating that they have tested negative within 3-5 days after their return from international travel.

I attest that I/my child received a negative result from a Covid-19 test (PCR or antigen, taken at home, at school, or at clinic or pharmacy) that was taken within 3-5 days after my/their return from international travel.
